International Watercourses Law for the 21st Century: The ...
Description. The Law of International Watercourses examines the rules of international law governing the navigational and non-navigational uses of international watercourses. The continued growth of the world's population places increasing demands on Earth's finite supplies of fresh water.

The Law of International Watercourses - Stephen C ...
the law relating to international watercourses is covered, as the point is emphasized that water is a vital resource without which human life, or any life, would not survive. Water therefore generates a number of problems, related to its scarcity or in some cases the total absence of it in arid areas.

The Law of International Watercourses (Oxford ...
International water law, used here as a catchphrase to refer to the international treaty norms and customary rules that apply to the fresh waters shared by two or more nation-states (transboundary watercourses), has evolved into an identifiable body of rules and practices over the past half-century.

International Watercourses - International Law - Oxford ...
This chapter will deal with another important aspect of international law – the law of international watercourses, a subject which is very controversial and certain aspects of which remain still unresolved, despite the existence of a significant case law, which crystallized many of the contentious issues and the signing of the 1997 Convention on the Non-Navigational Uses of International Watercourses (see below).

Protection of international watercourses
International watercourses and related installations, facilities and other works shall enjoy the protection accorded by the principles and rules of international law applicable in international and non-international armed conflict and shall not be used in violation of those principles and rules.

(PDF) The Law of International Watercourses: Non ...
According to this principle, no state in an international drainage basin are allowed to use the watercourses in their territory in a way that would cause significant harm to other basin states or to their environment, including harm to human health or safety, to the use of the waters for beneficial purposes or to the living organisms of the watercourse systems.

Principles of international water law: creating effective ...
This edited volume presents a comprehensive and comparative view of the law of international watercourses with special reference to the issues facing the Ganges River basin. It provides an analysis of the development of international waterways law and outlines the essentials of the UN Convention on non-navigational uses of international watercourses.

International Watercourses Law for the 21st Century: The ...
Abstract. This book is an authoritative guide to the rules of international law governing the navigational and non-navigational uses of international rivers, lakes, and groundwater. The continued growth of the world's population places increasing demands on Earth's finite supplies of fresh water. Because two or more States share many of the world's most important drainage basins, competition for increasingly scarce fresh water resources will only increase.

Convention on the Law of the Non-Navigational Uses of ...
The Convention on the Law of Non-Navigational Uses of International Watercourses, commonly referred to as the UN Watercourses Convention, is an international treaty, adopted by the United Nations on 21 May 1997, pertaining to the uses and conservation of all waters that cross international boundaries, including both surface and groundwater. "Mindful of increasing demands for water and the impact of human behavior", the UN drafted the document to help conserve and manage water resources for prese

Convention on the Law of the Non-Navigational Uses of ...
111 McCaffrey, The Law of International Watercourses, at 37, provides that the concept of drainage basin is functionally equivalent – at least hydrologically to that of the watercourse system. 112 Tanzi and Arcari, The United Nations Convention on the Law of International Watercourses: A Framework for Sharing at 59.
